SILVER DOLLARS

An attractive group featuring the rarities of 1794, 1836, 1838, 1839 and 1858 as well as an extensive selection of different dates in the 1794-1803 era and the 1840-1873 era.

The recent adjustment of 1878 to 1935 silver dollar values has attracted thousands of new collectors into the series. We predict that the older types will increase sharply in value.

1794 Always struck weakly on the lower left obverse. (Refer to Bolender's reference.) We offer a Fine specimen with the usual weakness. Three Dollar Gold Pieces

The combined total mintage of the entire \$3 gold
series from 1854 through 1889 was about a half
million pieces...less than the mintage of the 1877
Indian cent! Many \$3 dates with mintages less than
10,000 pieces may be purchased for \$200 to \$500.
Considering their very low mintages and present
day rarity most dates of \$3 are underpriced at the
present time.

1901 Brilliant Proof. Only 85 struck, and only a fraction of that known today. Proof gold coins did not become popular until the 1940's, so many were spent due to their high face val- ue. For that reason all Proof gold today is much rarer than the mintages would indicate 975.00	

\$20 Gold Double Eagles

1909/8 Overdate. Scarce and ne- glected by collectors. It is a fact that condition for condition the 1909/8 double eagle may be purchased for less than any of the other 20th century over- dates...the 1918/7-D nickel, 1942/1 dime and the 1918/7-S quarter. Considering the ap- peal of this coin we believe it should be much higher priced. We offer select specimens at today's attractively low prices of: Choice AU \$125.00; BU 170.00

U. S. HALF CENTS

United States half cents have long been one of
our favorite series. A representative collection,
exclusive of the "Proof only" dates, may be as-
sembled at moderate cost. In most instances the

half cent mintages are small fractions of the comparable large cent mintages. Half cents are a good buy today.

For reference we suggest "U. S. Half Cents 1793-1857", our own publication. Listed are half cents by-die varieties, including many not in Gilbert. A schedule of rarity is included also. Price is \$3.95.

- 1793 First year of issue and an important type coin. VF, a few light nicks \$775.00; VF, exceptionally nice 895.00
- 1794 VG 49.50
- 1795 Pl. ed., no pole. Struck over a planchet cut from a Talbot, Allum & Lee cent. Many of the original T.A.&L. inscriptions are still visible. EF. A conversation piece 375.00

- 1796 Pole to cap. 1796 has long been venerated as the date of the half cent series. 1796 half cents are infrequently seen, and the offering of a choice specimen is an unusual occasion. We offer two desirable pieces: VG \$1875.00; Choice VF 3750.00

1938-D over S. The famous "over-mintmark" Type II. Choice BU, the finest obtainable. Since its discovery about a year ago the 1938-D over S has become very popular. Indeed, it is the most fascinating coin in the Buffalo nickel series... a coin with ties to two mints... Denver and San Francisco! We would estimate that perhaps 2000 to 4000 pieces are known. This is a liberal estimate for we have seen only a small fraction of that number. We would rate it as being about equal in rarity to the 1913-S Ty. II. AU. The 1913-S Ty. II. AU sells for about \$50.00 EF and about \$250.00-\$300.00 BU. Underrated. Now is the time to buy 1938-D over S nickels for your collection or for investment.

We remember selling 1955 double dies by the dozens (we had approximately 500 in stock at one time) in \$20 to \$75 price range. Anyone who bought from us at that time has doubled, tripled or more their money. We have approximately 50 1938-D over S nickels on hand. BU - \$65.00; ten for..... 575.00

ENGLISH COINS

With the interest in English coins increasing by leaps and bounds on almost a daily basis, the series furnishes an ideal investment medium. Prices for English coins are very low when compared to prices of Canadian or United States coins of similar rarity. In fact, the English market is where the Canadian market was ten or fifteen years ago. Now is the time to collect or invest in English coins.

Rare 1950 Pennies

The 1950 English penny has a mintage of only 240,000 pieces making it more than twice as rare as the U.S. 1909-S V.D.B. cent! Few words are needed to describe the tremendous investment potential of this coin at our present price. We offer choice VF to EF pieces at:

Each..... 4.50
 Ten for..... 39.00
 100 for..... 325.00
 250 for..... 750.00

For a mere \$3.00 per coin (in a lot of 250) you can buy 1950 pennies at about 1/40th of the price of a comparable 1909-S V.D.B. cent. These 1950 pennies should be an A-1 investment.

COLLECT COINS OF ENGLAND...

The most promising new horizon in numismatics!

Every field of collecting English coins will discover one of the most interesting and underpriced series on the market today. English coins are attractive...the portraits and designs of Queen Victoria, Edward VII and the other monarchs are similar to those found on Canadian coins.

Dozens of different Brilliant Uncirculated English coins, both copper and silver, in the 1838-1901 years (the years of Victoria's coinage) may be purchased from \$3.00 to \$20.00 each. A choice collection of top grade English coins is not expensive...if you start now. The prices for English coins are similar to what the prices of Canadian coins were ten to fifteen years ago, before thousands of American collectors started sets of the various denominations. Now many Canadian coins are priced in the \$250.00 to \$1,000.00 range in Uncirculated condition, and a few are priced quite a bit higher.

We are now on the threshold of a price rise in English coins! Within the past year several books about English coins have been published and distributed in the United States. Albums and folders covering the English series are just beginning to become popular. This means that there will be a great demand for choice English coins dated since 1800. No dealer anywhere in the world has an extensive stock of Uncirculated English coins of those years. We know as we have made numerous buying trips to Europe and elsewhere, buying all we could find.

Empire's stock at the present time is composed of several large collections of English coins plus individual items. At the present time no other dealer's inventory in the world equals our stock of Uncirculated English coins from 1800 to 1930. We do not expect our stock to remain large for very long. Once many items are sold they are irreplaceable. We would not know where to buy others to replenish our holdings. We only have one or two specimens of many varieties...this is especially true of the 1838-1901 coinage. Now is the time to buy!

English coins are esthetically pleasing and are interesting to collect. We venture to say that they will prove to be a good investment too.
